### Shane Safir - Brave Spaces: The Courage to Walk Toward Equity

🕒 3:30pm - 5:30pm, Nov 5

In this interactive keynote, internationally respected author and consultant Shane Safir will explore

what it means to walk toward equity in this historic moment. Participants will look inward to reflect on their experiences of teaching and leading amidst a quadruple pandemic of COVID19, racial injustice, economic recession, and climate change. They will consider what it looks like to pitch a big and inclusive leadership tent that engages teachers and students in reimagining our schools. And they will tune in to equity and inequity as they explore 3 critical channels from Shane's book: structural racism, implicit bias, and cultural difference.

### Essential Questions

- What does it mean to teach and lead for equity in a time of pandemic?
- How is listening a vehicle for equity and antiracism?
